

Curriculum Vitae

Aleksander Bursche

I am a specialist in the field of relationships between Greeks, Romans and Barbarians. My other areas of interest include ancient numismatics. I have published 3 books and more than 150 papers and reviews. I have been an Alexander von Humboldt Research Fellow (Frankfurt am Main), a Research Fellow at Wolfson College (Oxford), Research Fellow of the American Academy in Rome, correspondent member of the German Archaeological Institute (DAI), member of the Steering Committee of the European Coin Find Network (cf. <http://www.ecfn.fundmuenzen.eu>), vice-president of the Scientific Board of the Copernicus Science Centre in Warsaw and President of the Board of the Digital Humanities Consortium DARIAH-PL.

Since 1980 I have been associated with the Institute of Archaeology, University of Warsaw, where I teach students, do research, and run a PhD seminar in ancient numismatics. I have been visiting professor at the Institute of Archaeology, Christian-Albrecht University in Kiel (Germany), Institute of the Study Ancient World, New York University and American Numismatic Society in New York, as well as advisory editor of "Antiquity" (Cambridge, UK). Currently I am advisory editor of "The Journal of the Archaeological Numismatics" (Brussels) and "Notae Numismaticae" (Cracow). I have participated in many international scientific projects e.g.: "Atlas of Greek and Roman World" (coordinated by the University of North Carolina at Chapel Hill and Princeton), Groupement de Recherche Européen: "Trouvailles monétaires" (coordinated by CNRS in Paris) and "NETConnect: Connecting European Culture through New Technology" within the frames of EU Programme "Culture 2000" (coordinated by Calabria University). I organised an international conference "Roman Coins outside the Empire" sponsored by the European Science Foundation.

Currently I am coordinating two 5 year projects: "Finds of Roman Coins from Poland and connected historically with PL" within the frame of the National Program of Humanities Development financed by the Ministry of Science and Higher Education and "Migration Period between Oder and Vistula" financed by Polish Science Centre.

In 2014 the President of Poland has awarded me with the Polonia Restituta order „for outstanding achievements in research and education in archaeology and on merits in protection and promotion of Polish cultural heritage” and in 2015 the Royal Numismatic Society (London) has awarded me with the Gilljam Prize for Third Century Numismatics.
